● Please bring a Wi-Fi enabled laptop & power cord.

Breaks and snacks will be provided.

[Register to Attend](#)

Who Should Attend

Individuals who have completed the COOP Planning Documents for their department or agency.

During the past few months, you and members of your organization have been involved in developing Continuity of Operations Plans (COOP). As you continue to refine your planning, a Table Top Exercise has been scheduled to test how your plan would perform should an actual emergency be deemed in Pershing County.

WHAT IS A TTX?

A table top exercise (often referred to as TTX) is a training tool that simulates emergency situations in an informal environment and are an integral part of proper emergency preparedness. Our facilitator, Gayle Sherman, Galena Property Services, will guide the exercise participants through a dangerous scenario to practice their response strategies.

These TTX training opportunities are conducted in low risk and low stress environment in a way that allows your department team members to get familiar with their responsibilities, procedures and processes should it become necessary to respond to an emergency in your community.

This training is sponsored by the Nevada Statewide COOP Planning Project Grant Initiative.
